

POLYTRON informiert

Regarding the semi-finished plastic products supplied by Polytron Kunststofftechnik GmbH & Co. KG and the components or parts produced thereof under customer order, we would like to give the following statement regarding actual export restrictions, to the best of our knowledge.

Following listed polymers and the components or parts made thereof – depending on their glass transition temperature (T_G) – are subject to the export restrictions listed hereunder:

- **Regulation (EC) Nr. 428/2009 of setting up a Community regime for the control of exports of dual-use items and technology**

Annex I – Category 1 – Section A – Systems, Equipment and Components

- 1A003 – Manufactures of non-fluorinated polymeric substances in film, sheet, tape or ribbon form

Annex I – Category 1 – Section C – Materials

- 1C008 – Non-fluorinated polymeric substances a)2. aromatic polyamide-imides (PAI)
- 1C008 – Non-fluorinated polymeric substances a)3. aromatic polyimides (PI)
- 1C008 – Non-fluorinated polymeric substances a)4. aromatic polyetherimides (PEI)

- **Export Administration Regulations (EAR) of the United States of America (USA)**

Part 774 – Supplement No. 1 – Category 1 – C – Materials

- 1A003 – Non-fluorinated polymeric substances controlled by 1C008.a.3 in film, sheet, tape or ribbon form
- 1C008 – Non-fluorinated polymeric substances a.2. aromatic polyamide-imides (PAI)
- 1C008 – Non-fluorinated polymeric substances a.3. aromatic polyimides (PI)
- 1C008 – Non-fluorinated polymeric substances a.4. aromatic polyether-imides (PEI)

Whether components or parts made from other polymers than those listed above are also subject to the mentioned or other export regulations, esp. to the **International Traffic In Arms Regulations (ITAR)**, depends on the field of application or use of these components or parts!

As Polytron Kunststofftechnik GmbH & Co. KG manufactures polymer components or parts as subcontractor only, we cannot give any comment on application or use. As we cannot give any comment on application or use, we cannot comment possible export restrictions!

It remains in the customer's responsibility to check whether the ordered components or parts themselves are subject to export regulations!
